Front Desk Talking Points: Chicago Tourism Improvement District

- Our hotel is located in the Chicago Tourism Improvement District (TID), which includes hotels with more than 100 rooms located within designated areas of Chicago.
- Beginning May 1, 2026, a 1.5% pre-tax assessment will be added per night to your room rate, as required by city ordinance.
- The assessment applies to all stays, even those booked or paid, before the effective date of May 1.
- This assessment applies to all qualifying paid sleeping room nights, including those booked prior to the effective date, unless specific exemptions apply (such as stays longer than 30 days).
- The TID assessment is separate from Chicago's existing occupancy taxes and any other applicable fees. All charges will be clearly outlined in your guest folio.
- All funds collected from this assessment are managed by Choose Chicago via a governing board. By law, these funds will be used exclusively to promote tourism, meetings, and conventions in Chicago.
